Independent Auditor's Report

Ms. Dorothy "Duffy" Rodriguez, Cabinet Secretary
State of New Mexico
Department of Finance and Administration
and
Mr. Wayne Johnson
New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of each of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the "Component Appropriation Funds"), as defined in the table of contents, as of and for the year ended June 30, 2017, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Component Appropriation Fund's, as defined in the table of contents, as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1A, the accompanying financial statements present only the Component Appropriation Funds and do not purport to, and do not, present fairly the financial position of the State of New Mexico as of June 30, 2017, and the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

The Tobacco Settlement Permanent Fund is presented as an unaudited fund in the accompanying other supplemental information schedules of the Component Appropriation Funds. The Tobacco Settlement Permanent Fund has been historically reported as part of the Component Appropriation Funds; however, a change in the State's accounting policy now requires the Tobacco Settlement Permanent Fund to be reported by the New Mexico State Investment Council. New Mexico state law requires the Tobacco Settlement Permanent Fund's investments to be managed by the New Mexico State Investment Council. For audited information on the Tobacco Settlement Permanent Fund refer to the New Mexico State Investment Council's audited financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the

information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements of the Component Appropriation Funds as defined in the table of contents.

The other supplementary information, which includes the unaudited Tobacco Settlement Permanent Fund, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2017, on our consideration of the Component Appropriation Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Component Appropriation Fund's internal control over financial reporting and compliance.

State of New Mexico
Component Appropriation Funds
Management’s Discussion and Analysis (Unaudited)
June 30, 2017

Overview of the Reporting Entity

The Component Appropriation Funds of the State of New Mexico (the “Funds”) consist of eight funds, three of which are created by statute and five created by administration, as follows:

Statutorily Created Funds

- Common School Current Fund
- Current School Fund
- State Support Reserve Fund

Administratively Created Funds

- Appropriation Account Fund
- Federal Mineral Leasing Fund
- Appropriation Contingency Reserve Fund
- General Operating Reserve Fund
- Tax Stabilization Reserve Funds

The Funds are part of the General Fund of the State of New Mexico, as reported in the State’s Comprehensive Annual Financial Report.

This report has been prepared to meet the information needs of interested parties—the public, bond holders, bond rating agencies, the New Mexico State Legislature—and to comply with the State of New Mexico Audit Rule. It presents the financial position and results of operations of each of the Funds. The Tobacco Settlement Permanent Fund, which is a reserve fund of the state is managed by the State Investment Council, which is responsible for investment activities related to this and other similar funds. The Schedules presented in other supplementary information include the unaudited Tobacco Settlement Permanent Fund as well as “memorandum only” totals.

Financial Highlights

The Funds ended the year with aggregate reserves of 8.1% of recurring current year appropriations as compared to 2.4% in fiscal year 2016, which both include the Tobacco Settlement Permanent Fund in their calculation. See the other supplementary information for schedules that include the unaudited Tobacco Settlement Permanent Fund.

The Tobacco Settlement Permanent Fund, which contains the unspent corpus of the continuing settlement, is managed and reported by the New Mexico State Investment Council (SIC) under statute and reflective of stewardship assignment and investment reporting requirements related to the corpus.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2017

In fiscal year 2017, the aggregate fund balance of the Funds increased by \$312.1 million. In fiscal year 2016, the Funds aggregate fund balance decreased by \$601.4 million, which included the Tobacco Settlement Permanent Fund. The increase in fiscal year 2017 is attributable to the decrease in appropriations of \$176.1 million or 2.8% from 2016 appropriations. In addition, miscellaneous receipts revenues increased by \$296.5 million in fiscal year 2017.

Fiscal year 2017 compares to fiscal year 2016 as follows:

- General and selective taxes are the largest revenue source, contributing \$2,586.8 billion or 47.9% of total revenues in fiscal year 2017. Those revenues increased by \$33.0 million or 1.3% in 2017. From the general and selective taxes category, gross receipts and compensating taxes had an increase of \$38.1 million and \$1.6 million, respectively. Motor vehicle excise tax had a decrease of \$5.2 million.
- Income taxes are the second largest revenue source contributing \$1,450.8 billion or 26.9% of the total revenues. Those revenues increased by \$5.1 million or less than 1% in fiscal year 2017. From the income taxes category, net personal income taxes increased by \$56.9 million or 4.3%, however corporate income tax decreased by \$48.3 million or 40.8% in fiscal year 2017.
- Severance taxes increased by \$61.8 million or 22.1%. From the severance taxes category, oil and gas emergency school tax increased by \$67.4 million or 28.5%. Natural gas processors tax decreased by \$10.0 million or 49.4%.
- Investment income decreased by \$773.5 million in fiscal year 2017. This is a result of major financial reporting change for fiscal year 2017. The land grant permanent fund (\$541.5 million) and the severance tax permanent fund (\$200.4 million) revenues will be reported in the State Investment Council financials statements and are now recorded as other financing sources—transfers in on the State General Fund financials statements.
- Miscellaneous receipts increased by \$296.5 or 175.5%. The Legislature passed Senate Bill 8 and 9 from the Laws of 2016 and Senate Bill 113 from the Laws of 2017 that generated additional reversions totaling \$103.7 million in fiscal year 2017. Also, the result of major financial reporting changes for fiscal year 2017 resulted in recording revenues from the Fire Protection Fund, Law Enforcement Fund and Small Counties Assistance Fund as reversions totaling \$121.6 million, all of which was a one-time benefit.
- Appropriations decreased by \$176.1 or 2.8% in fiscal year 2017. The Legislature passed Senate Bill 9 that reduced appropriations in fiscal year 2017 by \$149.9 million. The majority of state agency budgets were reduced between 3.0% and 5.5%.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The Component

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2017

Appropriation Funds are categorized as governmental funds and therefore report using the modified accrual basis of accounting. The basic financial statements of the Funds include Balance Sheets and Statements of Revenues, Expenditures and Changes in Fund Balances, which are reported on pages 14 through 17, respectively.

The Funds do not adopt annual appropriated budgets. However, the appropriations of the Funds by law must equal the individual amounts appropriated in the various Appropriation Acts, which are reported in the Schedule of Appropriations on pages 38-45.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on pages 18 through 31 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents, as other supplementary information, the Schedule of Balance Sheet and Schedule of Revenues, Expenditures and Fund Balances, which includes the Tobacco Settlement Permanent Fund's unaudited amounts for fiscal year 2017. These schedules display the amount of investments held in the State Investment Council and the net increase/decrease in fair value for these investments. These numbers are not audited and are presented to show the amount of the investments held by the State Investment Council to help the reader of the statements understand the position of a fund that can be used as a reserve to the Component Appropriation Funds. The audited numbers for the Tobacco Settlement Permanent Fund can be found in the State of New Mexico's State Investment Council's 2017 Financial Statement report located at their website. In addition, other supplementary information includes the Schedule of Revenues by Source and the Schedule of Appropriations. These schedules provide detailed information on revenues and appropriations to demonstrate legal compliance with the statutes governing the collection of revenue and disbursements of appropriations by the Component Appropriation Funds.

Also presented as other supplementary information are the following:

- Schedule of Amounts Due from Other State Entities
- Schedule of Amounts Due from Beneficiaries
- Schedule of Amounts Due from Taxpayers
- Schedule of Amounts Due to Other State Entities
- Schedule of Amounts Due To Local Governments
- Schedule of Amounts Due to Taxpayers
- Schedule of Transfers In/(Out)

Management's Discussion and Analysis (Unaudited)
June 30, 2017

Fund Financial Analysis

The focus of the financial statements of the Funds is on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements.

As of the end of the current fiscal year, the Funds reported aggregate fund balance of \$349.5 million, an increase of \$312.1 million from fiscal year 2016. Aggregate assets, liabilities, deferred inflows of resources, and fund balance as of June 30, are as follows:

**Aggregate Assets, Liabilities,
Deferred Inflows of Resources, and Fund Balance**
June 30,
(in millions of dollars)

	2017	2016 Excludes Tobacco Settlement Permanent Fund
Assets	\$ 611.0	\$ 1,383.6
Liabilities	(197.3)	(1,293.3)
Deferred inflow of resources	(64.2)	(53.0)
Fund balance	\$ 349.5	\$ 37.3

The assets held by the Funds are unappropriated and are committed with the exception of the State Support Reserve Fund (\$1.0 million), which is restricted. It has been the policy of the State of New Mexico to not consider the deferred inflows of resources, \$64.2 million, as available for appropriation.

Management's Discussion and Analysis (Unaudited)
June 30, 2017

Economic Factors Affecting New Mexico's Fiscal Year 2017 Budget

New Mexico utilizes a consensus of legislative and executive forecasts of Fund's revenue so that the Executive and Legislature work with the same forecast in preparing their General Fund operating budget recommendations. This "consensus group" bases their revenue forecast on forecasts of the U.S. economy from IHS Global Insight and Moody's Analytics in combination with forecasts of the New Mexico economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs are supplemented with information provided by state agencies, the Congressional Budget Office, and other national data sources. Historical information on the value and volume of crude oil and natural gas produced in the state is derived from the State's ONGARD reporting system. Product price forecasts are based on the national economic forecasting services and other sources.

Trends in the U.S. Economy

The U.S. economy continued to grow in state fiscal year 2017, although at a slower pace. The national economy, as measured by real gross domestic, grew by 2.1% in fiscal year 2017, hindered by a slowdown in the energy sector and a decline in business investment. Total employment levels averaged 2.3 million, or 1.6%, above fiscal year 2016 (or 1.6%). U.S. average hourly wages grew by 2.7%, exceeding low inflation of 1.8% to increase worker purchasing power of paychecks. However, real growth in wages was partially offset by increases in healthcare costs of 3.8%.

U.S. economic growth is expected to accelerate in fiscal year 2018, with projected GDP growth of 2.6%. The Federal Reserve is expected to raise short-term interest rates in the early half of the State's fiscal year in response to stronger inflation and ongoing employment gains. Housing prices are projected to continue to rise in fiscal year 2018, while business spending is anticipated to show modest growth.

New Mexico Economy

The New Mexico economy continued to stabilize in fiscal year 2017, as state wages and salaries grew by 1.0% and total personal income in the state grew by 1.6%. Oil and natural gas prices stabilized in fiscal year 2017, which resulted in increased drilling activity and employment in the state's oil and natural gas producing sector. During fiscal year 2017, New Mexico employment growth averaged 0.5%, adding 4,500 jobs. The Education and Health Services sector averaged 4,150 additional jobs, and the Leisure and Hospitality sector increased by 3,300 jobs. The Mining Sector averaged 3,400 fewer jobs than in fiscal year 2016.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2017

Average prices in fiscal year 2017 for crude oil and natural gas were \$45.10 per barrel and \$3.27 per thousand cubic feet, respectively. Prices for these commodities reached their recent peaks in fiscal year 2014, and fiscal year 2017 prices represented a decrease of 52.6% from the peak for oil and 36.3% from the peak for natural gas. Notwithstanding the price drop, New Mexico oil production reached a record 150.0 million barrels in fiscal year 2017, making New Mexico the fifth largest producing United States' state for oil, and the tenth largest for natural gas.

Dependence on federal government spending has also been a headwind for the state's economy because of constrained federal budget growth. Although direct federal government employment has begun to stabilize in New Mexico, in fiscal year 2017 it was down to its second lowest level since at least 1990.

The Funds Revenue and Reserve Outlook

According to the August 2017 consensus revenue estimate, fiscal year 2017 recurring revenue is expected to have grown by 0.4% to just over \$5.7 billion, while year-end financial reserves are estimated to be 5.5%, inclusive of the Tobacco Settlement Permanent Fund, of recurring appropriations. Strong growth in oil and natural gas-related revenues in fiscal year 2017 offset declines in personal and corporate income taxes and earnings on state investment balances, while general sales taxes experienced modest growth.

Fiscal year 2018 recurring revenues are estimated to be 3.5% higher than fiscal year 2017, at around \$5.9 billion. Oil and natural gas related revenues are projected to be fractionally lower than fiscal year 2017 levels as supply and demand in energy markets respond to lower oil and natural gas prices. New Mexico oil prices are projected to average \$44.50 per barrel, while New Mexico natural gas prices are expected to average \$3.20 per thousand cubic feet. Oil volumes are projected to increase by 2.8% and natural gas volumes are estimated to remain flat.

Non-oil and natural gas related revenue is forecasted to grow by 4.2%, reflecting growth of 2.8% in general sales tax, 2.0% in personal income tax, and 3.6% in insurance premiums tax. Gross receipts tax revenue is expected to be the largest driver of growth, increasing revenues by nearly \$53 million as the Rio Grande corridor experiences moderate growth, food and medical hold harmless distributions to local governments continue to be phased out, and private sector investments in oil and natural gas production continue. Distributions from the Land Grant Permanent Fund are also expected to contribute to growth, increasing general fund revenue by an estimated \$43.6 million in fiscal year 2018 due to a higher average 5-year market value. Fiscal year 2018 ending reserves are projected to be \$213.9 million or 3.5%, inclusive of the Tobacco Settlement Permanent Fund, of recurring appropriations.

Notes to the Financial Statements

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

1) Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying financial statements report eight statutorily and administratively created funds administered by the Department of Finance and Administration of the State of New Mexico. The funds are referred to as “Component Appropriation Funds” (the “Funds”). Together with many other statutorily and administratively created funds, they comprise the General Fund of the State of New Mexico, which is presented in the State of New Mexico’s Comprehensive Annual Financial Report.

The Funds do not constitute a primary government, component unit, or any other type of reporting entity as defined by generally accepted accounting principles.

Taken together, the Funds present the primary revenue and financing of the activities of the State of New Mexico. As such, the Legislature, state officials and the citizens of the State of New Mexico, as well as other groups such as bond issuers and rating services, have an interest in the operations of the Funds. The accompanying financial statements are presented to meet those needs. A ninth fund, the Tobacco Settlement Permanent Fund, which is managed and reported by the N.M. State Investment Council (SIC) is considered a reserve fund of the Component Appropriations Funds.

The following is a description of the eight statutorily and administratively created funds.

Statutorily Created Funds

1. Common School Current Fund – SHARE Fund 71600

The *Common School Current Fund* (also known as the *Common School Income Fund*) was created by Section 19-1-17, NMSA 1978. This statute requires that the fund be credited with its respective proportion of money from the *State Land Income Fund* and the *State Permanent Fund*. Section 22-8-32, NMSA 1978, requires that at the end of each month, the state treasurer transfer out the cash balance in this fund to the *Current School Fund*. Transfers will be presented as expenditures in these financial statements.

2. Current School Fund – SHARE Fund 71700

The *Current School Fund* was created by Section 22-8-32, NMSA 1978. This statute requires the state treasurer to deposit into this fund: 1) all fines and forfeitures collected under general laws; 2) the net proceeds of property that may come to the state by escheat (however, Section 7-8A-13, NMSA 1978, requires all funds received under the Unclaimed Property Act to be deposited in the tax administration suspense

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

fund for distribution to the *General Fund*); and 3) all other revenue required by law to be credited to the fund. In addition, as noted above, the statute requires that each month the cash balance in the *Common School Current Fund* be transferred into this fund. Transfers will be presented as expenditures in these financial statements.

In addition to the above, Section 22-8-32 requires any unencumbered balance in this fund to be transferred out to the *Public School Fund*—a statutorily created fund administered by both the Public Education Department and the Component Appropriation Funds.

3. *State Support Reserve Fund – SHARE Fund 85700*

The *State Support Reserve Fund* was created by Section 22-8-31, NMSA 1978. This statute requires the following: The *State Support Reserve Fund* shall be used only to augment the appropriations for the state equalization guarantee distribution in order to ensure, to the extent of the amount undistributed in the fund, that the maximum figures for such distribution established by law shall not be reduced. The fund balance at June 30, 2017, was \$1,000,000 and is restricted based on the statute that created the fund.

Administratively Created Funds

1. *Appropriation Account Fund – SHARE Fund 85300*

The *Appropriation Account Fund* is an administratively created fund the *Component Appropriation Funds* uses to account for the financial activity of the statutorily created *General Fund* and for portions of the financial activity of the statutorily created *Public School Fund* of the State of New Mexico.

State statute, Section 6-4-2, NMSA 1978, creates the *General Fund* and requires the state treasurer to credit all revenues, not otherwise allocated, to the fund. In addition, the statute requires that expenditures from the fund be made only in accordance with appropriations authorized by the Legislature. Those appropriations result in allotments of cash from the *General Fund*. The allotments are presented as expenditures in the accompanying financial statements.

Section 22-8-14, NMSA 1978, creates the *Public School Fund*. The *Component Appropriation Funds* administers three financial activities of that fund; all other activities of the fund are administered by the Public Education Department.

One of those activities administered by the *Component Appropriation Funds* is the transfer from the *Current School Fund* to the *Public School Fund* required by Section 22-8-32, NMSA 1978. The *Component Appropriation Funds* administers the other

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

two activities through its *Federal Mineral Leasing Fund* (see item 2 below). Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181 (the General Appropriation Act defines *General Fund* to include Federal Mineral Leasing Act receipts) and allotting cash, based on legislative appropriations, from the *Public School Fund* to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

The transfer described in the previous paragraph reduces (offsets) the appropriation and related cash allotments that have been made from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department. The General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amounts transferred to the *Public School Fund* from the *Current School Fund*. Transfers will be presented as expenditures in these financial statements.

For the year ended June 30, 2017, the Funds changed the estimate for accounting for the due from taxpayers and unearned revenues. The change is being applied prospectively, beginning July 1, 2016. The effect of this change in the current fiscal year over the prior fiscal year is an increase of approximately \$11.3 million in due from taxpayers and unearned revenue.

2. *Federal Mineral Leasing Fund – SHARE Fund 85100*

As noted above, the *Component Appropriation Funds* administers two other activities of the *Public School Fund* through its administratively created *Federal Mineral Leasing Fund*. Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181, and allotting cash—based on legislative appropriation—from the portion of the *Public School Fund* administered by the *Component Appropriation Funds* to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

Like the transfer in from the *Current School Fund*, the receipts from the Federal Minerals Land Act, 30 USC 181 reduce (offset) the appropriation and related cash allotments that have been made from the *General Fund* to fund a portion of the *Public School Fund* administered by the Public Education Department. As noted above, the General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amount of Federal Minerals Land Act receipts. Transfers will be presented as expenditures in these financial statements.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

The General Appropriations Act is consistent with Section 22-8-34, NMSA 1978, in that Section 22-8-34 requires the state treasurer to deposit all money received under the Federal Mineral Lands Leasing Act to the *Public School Fund*, except for the following: 1) that portion appropriated to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology; and 2) the remainder of any prepayments after deducting the amount that the state would have received as its share of royalties during the fiscal year. (The statute requires that the remainder be distributed to the *Common School Permanent Fund*.)

3. *Appropriation Contingency Reserve Fund – SHARE Fund 85400*

Section 6-4-2.3, NMSA 1978, creates the appropriation contingency reserve within the *General Fund*. To account for the reserve, the Component Appropriation Funds has established the *Appropriation Contingency Reserve Fund*. Section 6-4-2.3 includes the following requirements: The appropriation contingency reserve may be expended only upon specific authorization by the legislature or as provided in Sections 6-7-1 through 6-7-3 NMSA 1978 in the event there is no surplus of unappropriated money in the *General Fund*. The fund balance at June 30, 2017, was \$25,960,612 and was committed based on the statute that created the fund.

4. *General Operating Reserve Fund – SHARE Fund 85200*

Section 6-4-2.1, NMSA 1978, creates the General Operating Reserve Fund within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *General Operating Reserve Fund*. Section 6-4-4, NMSA 1978, requires that excess revenue over appropriations (expenditures/expenses) in the *General Fund* be transferred to the *General Operating Reserve Fund* provided that 1) if the sum of the excess revenue plus the balance in the operating reserve prior to the transfer is greater than eight percent of the aggregate recurring appropriations from the *General Fund* for the previous fiscal year, then an amount equal to the smaller of either the amount of the excess revenue or the difference between the sum and eight percent of the aggregate recurring appropriation from the *General Fund* for the previous fiscal year; and 2) that if the total of the amount transferred to the *Tax Stabilization Reserve Fund* plus the balance in that reserve prior to the transfer is greater than six percent of the aggregate recurring appropriations from the *General Fund* for the previous fiscal year, then an amount equal to the smaller of either the amount transferred or the difference between the total and six percent of the aggregate recurring appropriation from the *General Fund* for the previous fiscal year is appropriated to the *Taxpayer Dividend Fund*. Transfers will be presented as expenditures in these financial statements.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

The *General Operating Reserve Fund* may be expended only upon specific authorization by the legislature and only in the event *General Fund* revenues and fund balances, including all other transfers to the *General Fund* authorized by law, are insufficient to meet the level of appropriations authorized. The fund balance at June 30, 2017, was \$322,518,295 and was committed based on the statute that created the fund.

5. *Tax Stabilization Reserve Fund – SHARE Fund 84300*

Section 6-4-2.2, NMSA 1978, creates the tax stabilization reserve within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *Tax Stabilization Reserve Fund*. The balance of the tax stabilization reserve consists of those funds directed to it by law (Section 6-4-4) and such other funds as the legislature may appropriate from time to time to the reserve. Except as otherwise provided in Subsection D of Section 6-4-2.2, NMSA 1978, any balance in the *Tax Stabilization Reserve Fund* may be appropriated only by a two-thirds majority vote of both houses of the legislature following receipt by the legislature of a declaration of the governor that such an appropriation is necessary for the public peace, health and safety. However, subsection D allows the legislature to appropriate balances in the fund without any restrictions, in the event that resources are not sufficient to meet authorized appropriations.

B. Basis of Accounting and Presentation

The financial statements of the Funds have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units and funds. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting.

Fund Financial Statements—Each of the Funds are reported as Governmental Funds. Accordingly, they are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. For derived tax revenues, related assets are recognized when the exchange transaction occurs or when the resources are received, whichever occurs first. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Funds consider tax revenues to be available if they are collected within 60 days after the end of the fiscal year. Unearned revenues are reported when assets, such as taxes are obtained prior to revenue being recognized.

Escheats are not considered susceptible to accrual and are therefore recognized when received. Reversions are recognized if collected within 90 days of the end of the current fiscal period and all other revenues are considered to be available if collected prior to

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

completion of the Funds' financial statements, typically by November 15th following the end of the fiscal year. Appropriations generally are recorded when a liability is incurred. Debt service expenditures are recorded only when payment is due.

C. Assets, Deferred Outflow of Resources, Liabilities, and Deferred Inflow of Resources

1. *Due from Other State Entities*—Section 6-4-2, NMSA 1978, requires all revenues—not otherwise allocated by law—to be credited to the Component Appropriation Funds. In addition, Section 6-5-10, NMSA 1978, requires all unassigned fund balances in reverting state agency funds to be reverted to the Component Appropriation Funds. Various state agencies collect revenues on behalf of the Component Appropriation Funds. In addition, most state agencies administer funds that revert balances to the Funds.

The amounts due from other state entities reported in the accompanying financial statements are amounts due to the Funds under the authority of the two statutes cited above. The amount due from taxpayers has been reduced by \$78.8 million, which represents the estimated amount of personal income tax refunds in excess of final personal income tax settlements, at June 30, 2017. The estimate is based on a ten-year average of final settlement payments and refunds. Fiscal year 2017 is the sixth year the estimate was based on a ten-year average. The estimate for fiscal year 2007 was based on a three-year average, and the estimates for fiscal years 2008 and 2009 were based on the estimate for 2007.

2. *Due to Local Governments*—The amounts due to local governments reported in the accompanying financial statements are 1/12 of the annual appropriation amounts due to local governments. This is a timing difference and the amounts due to local governments are paid within 30 days of the fiscal year-end.
3. *Due from Taxpayers and Unearned Revenues*—GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65) states that when an asset is recorded in Governmental Fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available. Amounts due from taxpayers recorded as unearned revenues are earned during fiscal year 2017, but are not readily available until more than 60 days after the fiscal year-end, resulting in the reclassification to deferred outflow of resources (due to taxpayers) and unearned revenue (deferred inflow of resources).
4. *Use of Resources*—When both restricted and unrestricted resources are available for use, it is the Component Appropriation Funds' policy to use restricted resources first and then unrestricted resources as they are needed.
5. *Interfund Activity*—The effect of interfund activity between these eight statutorily and administratively created funds has been eliminated from the memorandum totals in

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

the accompanying financial statements. This interfund activity included the receivables and payables listed in the table below.

Due from Other Funds		Due to Other Funds		
Name	SHARE System Fund Number	Name	SHARE System Fund Number	Amount
Appropriations Accounts Fund	85300	Current School	71700	\$ 45,191,232
General Operating Reserve	85200	Appropriations Accounts Fund	85300	321,800,417
Current School Fund	71700	Common School Fund	71600	45,191,232
				<u>\$ 412,182,881</u>

D. Revenues, Appropriations and Expenditures

1. *Reversions*—Once an appropriation lapses, the unspent cash balance is usually required by law to be returned to the fund from where the appropriation allotment originated (that is, from where the cash related to the appropriation originated). In the accompanying financial statements, the cash returned to the Funds is treated as general revenue and presented as “reversions.”
2. *Revenues*—The Component Appropriation Funds account for all financial resources of the state except those required to be accounted for by a fund within another state entity. Sources of revenues are collected by various agencies of the state and held within an agency fund to be transferred to one of the Component Appropriation Funds for revenue recognition. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.
3. *Expenditures*—Appropriations represent legislatively approved transfers of budgeted funds to state entities for the necessities of operations.

E. Fund Balances

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balance classifications are based primarily upon the extent to which a government is bound to follow constraints on resources in governmental funds in the following categories: nonspendable, restricted, committed, assigned, and unassigned.

Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority.

Restricted fund balance represents those portions of fund balance where constraints are placed on resources, either externally or by law through constitutional provisions or

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

enabling legislation. Unassigned fund balance is the residual amount after all classifications were considered.

The accompanying financial statements report restricted fund balance in the State Support Reserve Fund because the balance is legally restricted for specific purposes.

F. Budgets

Annually, the Governor is required to submit a balanced budget by fund, function and activity to the Legislature. The Legislature authorizes expenditures in the annual Appropriations Act by source, which is signed into law by the Governor. Annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address the budget issues. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation unit level. The budget is adopted on a budgetary basis that is not consistent with GAAP. The appropriations of the Component Appropriation Funds by law must equal the individual amounts appropriated in the various Appropriation Acts.

G. Change in Accounting Policy and Presentation

1. *Amounts Reverted to the Funds*—Section 6-5-10 NMSA 1978 requires that all unreserved undesignated fund balances in reverting funds and accounts as of June 30 shall revert by September 30 to the Appropriation Account Fund. Historically, the Department of Finance and Administration’s (DFA) Year-End Deadlines policy (commonly referred to as ‘closing instructions’) required state agencies to record a “Due to other State Entity” liability account (232900) for reversions not settled by June 30 of each fiscal year-end. The historical policy required state agencies to execute a transfer in the subsequent fiscal year to relieve the amount “Due to other State Entities” and increase the Appropriation Account Fund “Investment in State General Fund Investment Pool.” Pursuant to DFA’s Addenda to Accounting Policy Statement Four – Custodial Funds dated July 14, 2017, DFA adopted a change of accounting policy applicable to all state agencies in fiscal year 2017 for amounts reverted to the Appropriation Account Fund. Under the new policy, DFA requires state agency reversions to the Appropriation Account Fund to be accounted for as both a reversion and a reduction in the reverting agency’s “Investment in State General Fund Investment Pool” as of June 30, using the State’s adjustment period, if the entry was processed by September 30, 2017. In accordance with the new policy, no “Due from other State Entity” receivable is reported in the Appropriation Account Fund financial statements as of June 30, 2017, because the Appropriation Account Fund “Investment in State General Fund Investment Pool” balance has been increased by the amount reverted to the Appropriation Account Fund.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

2. *Departure of Tobacco Settlement Permanent Fund*—Management of the Funds’ has elected to report this fund in the State of New Mexico State Investment Council’s (SIC) financial statements. SIC is assigned investment and management responsibilities for this fund.

H. Recently Issued Accounting Standards

GASB Statement No. 81, Irrevocable Split-Interest Agreements

The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for periods beginning after December 15, 2016. Earlier application is encouraged. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 81 on its financial statements.

GASB Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73

The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of paragraph 7 in a circumstance in which an employer’s pension liability is measured as of a date other than the employer’s most recent fiscal year-end. In that circumstance, the requirements of paragraph 7 are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. Earlier application is encouraged. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 82 on its financial statements.

GASB Statement No. 83, Certain Asset Retirement Obligations

This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

encouraged. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 83 on its financial statements.

GASB Statement No. 84, Fiduciary Activities

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement is not applicable to the Funds' reporting.

GASB Statement No. 85, Omnibus 2017

The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The provisions of this Statement are effective for periods beginning after June 15, 2017. Earlier application is encouraged. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 85 on its financial statements.

GASB Statement No. 86, Certain Debt Extinguishment Issues

The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The provisions for this Statement are effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 86 on its financial statements.

GASB Statement No. 87, Leases

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement is not applicable to the Funds' reporting.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

2) Investment in State General Fund Investment Pool

State law (Section 8-6-3 NMSA 1978) requires investments of the Funds be managed by the New Mexico State Treasurer’s Office. The investments managed by the State Treasurer’s Office consist of an interest in the State General Fund Investment Pool managed by the New Mexico State Treasurer’s Office, which is accounted for as cash and cash equivalents. See the New Mexico State Treasurer’s Office audited financial statements via the NM Office of the State Auditor’s website for further information.

As of June 30, 2017, the Funds had the following investments:

Description	Maturities	Fair Value
New Mexico State Treasurer's Office General Fund Investment Pool	1 day to 5 years	\$ <u>27,678,490</u>

Interest Rate Risk

The New Mexico State Treasurer’s Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is a means of managing exposure to fair value losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit Risk

The New Mexico State Treasurer pools are not rated. For additional GASB Statement No. 40, *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3*, disclosure information regarding cash held by the New Mexico State Treasurer, the reader should refer to the separate audit reports for the New Mexico State Treasurer’s Office for the fiscal year ended June 30, 2017. The Funds do not have an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

3) Advance from the State General Fund Investment Pool

The Appropriation Account Fund disburses allotted appropriations to various entities based on New Mexico Legislative Appropriation Acts, in anticipation of the collection of tax revenues, fees and other sources. The State General Fund Investment Pool makes advances to the Appropriation Account Fund to the extent that such sources have not yet been collected. Advances from the State General Fund Investment Pool totaling \$151,649,338 at June 30, 2017, will be repaid as amounts due from other state entities are collected.

4) Due from Other State Entities

Various state agencies, mainly New Mexico Taxation and Revenue Department, collect revenues on behalf of the Funds. Resulting aggregate amounts due from state entities are composed of the following at June 30, 2017:

SHARE System Fund Number	Source	Amount
83200	Withholding Taxes	\$ 172,062,376
83200	Gross Receipt Tax	126,636,940
64200	Personal Income Tax	(56,850,620) *
11820	Superintendent of Insurance	55,032,992
83300	Severance - School Tax	51,996,200
60100	Land Grant Permanent Fund	45,191,232
27900	Taxation and Revenue Department- Corporate Income Taxe	29,426,192
60200	Severance Tax Permanent Fund Income	16,703,527
02000	State Treasurer's Office- Tribal Revenue Sharing	15,420,232
57800	Public Regulation Commission- Fire Protection Fund	18,665,159
82800	Luxury Tax	7,758,236
82800	Gaming Tax	6,566,187
83200	Compensating Tax	5,021,923
73600	DFA Law Enforcement Protection	4,632,078
83300	Severance - Conservation Resource	2,602,084
Various	Other	2,753,602
		<u>\$ 503,618,340</u>

*The negative receivable balance represents unidentified deposits that are remitted to the Funds as required by State statute(s).

5) Transfers

For fiscal year 2017, the Second Session of the 53rd Legislature, authorized the following:

- ◆ Laws of 2016, Chapter 12, Section 2(A) and 2(C), transfers \$54 million from various funds or accounts to the Appropriations Account Fund to meet fiscal year 2017 obligations.
- ◆ Laws of 2016, Chapter 12, Section 2(F), 2(G), and 2(H) authorizes the transfer of \$13 million related to unexpended supplemental severance tax bond proceeds.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

During the same Legislature's second special session, authority was provided for the following:

- ◆ Laws of 2016, Chapter 4, Section 3(A) transfers \$61.4 million to the Appropriation Account Fund to meet fiscal year 2017 obligations.
- ◆ Laws of 2016, Chapter 4, Section 3(B) transfers \$16.1 million to the Appropriation Account Fund from unused funds of the Public Education Department, a state entity.
- ◆ Laws of 2016, Chapter 4, Section 3(C) transfers \$15.5 million from the Public Project Revolving Fund to the Appropriation Account Fund during fiscal year 2017.
- ◆ Laws of 2016, Chapter 5, Section 7 transfers of \$28.3 million related to an issuance of severance tax bonds.

During the 1st Session of the 54th Legislature, authorized the following:

- ◆ Laws of 2017, Chapter 2 transfers \$47.2 million to the Appropriation Account Fund from various funds or accounts for general fund appropriation reductions.

During the same Legislature's first special session, authority was provided for the following:

- ◆ Laws of 2017, 1st Special Session, Chapter 1, Sections 1, 3-C-1, 3-C-6, 3-C-7, and 3-C-9 the transfer of \$82.1 million primarily due to a \$81.4 million issuance of severance tax bonds.

For detailed information, see the Schedule of Transfers In/(Out) in the other supplementary information section.

6) State General Fund Investment Pool Reconciliation

The state maintains a short-term investment "pool," the State General Fund Investment Pool (SGFIP). The investment pool is managed by the New Mexico State Treasurer's Office (STO).

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is not a part of the accompanying financial statements, but is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances. As of June 30, 2017, the Component Appropriations Funds report an aggregate investment of \$27,678,490 in the SGFIP (see Note 2).

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2017

The state controller indicated on August 11, 2017, that resources held in the pool were equivalent to the corresponding business unit claims on those resources and that all claims as recorded in SHARE shall be honored at face value.

7) Financial Reporting and Disclosure for Multiple-Employer Cost Sharing Pension Plans by Employees

Compliant with the requirements of Government Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, the State of New Mexico implemented the standard for the fiscal year ending June 30, 2016.

The Component Appropriations Funds, as part of the primary government of the State of New Mexico, is a contributing employer to a cost-sharing multiple employer defined benefit pension plan administered by the Public Employees Retirement Association (PERA). Disclosure requirements for Governmental Funds apply to the primary government as a whole, and as such, this information will be presented in the Comprehensive Annual Finance Report (CAFR) of the State of New Mexico. As of June 30, 2017, the States Funded Divisions' net pension liability is \$3.2 billion, and the States' total net pension liability is \$6.2 billion.

Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards*

Ms. Dorothy "Duffy" Rodriguez, Cabinet Secretary
State of New Mexico
Department of Finance and Administration
and
Mr. Wayne Johnson
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the "Component Appropriation Funds"), as defined in the table of contents, as of and for the year ended June 30, 2017, and the related notes to the financial statements, and have issued our report thereon dated November 13, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Component Appropriation Funds' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Component Appropriation Funds' internal control. Accordingly, we do not express an opinion on the effectiveness of the Component Appropriation Funds' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Component Appropriation Funds' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Component Appropriation Funds' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "REDW LLC". The letters are stylized and cursive.

Sara Specht, CFE	Senior Associate II

Financial Statement Preparation

The State of New Mexico Component Appropriation Funds (Component Appropriation Funds) independent public accountants assisted in the preparation of the financial statements presented in this report; however, the Component Appropriation Funds’ management is responsible for the financial statement and disclosure content. The Component Appropriation Funds’ management has reviewed and approved the financial statements and related notes and they believe that their records adequately support the financial statements.
