*Deadline to submit capital outlay project
requests online: Friday, December 13, 2024*

New for 2025

Most changes to the capital request process for 2025 are related to moving the deadline up to December 13, 2024.

- Information will be available online and will go to legislative leadership offices as submitted
- New search function will generate a report showing all the project requests submitted by a given entity
- Because the information will be going out early to leadership offices, changes will not be made to submitted projects on the website
- LCS staff will continue to refine language and information for all projects once the information has been pulled from the website and entered in the LCS database
